Professional laundry detergents

Welcome to the world of **Clinex brand**.

We are a **Polish company** with over 30 years of tradition, manufacturing professional Clinex chemicals dedicated to the broadly understood cleaning industry. For years, our brand has been setting standards in the industry, being both a caretaker and a companion to our customers. Our products are the result of continuous work aimed at offering solutions that meet the real needs of users.

Our slogan „**We care about cleanliness responsibly**” is not just an empty slogan, but the foundation of every decision and innovation. At Clinex, we believe that **responsibility** encompasses not only efficiency but also **safety, ecology, and ethics**. Therefore, our actions related to Corporate Social Responsibility (CSR) are inseparably linked to every aspect of our operations, from product formulations and production processes to supporting local communities and environmental initiatives.

Join us in discovering a world where cleanliness goes hand by hand with caring for the future of our planet.

## LAUNDRY-LINE

PROFESSIONAL

The Clinex brand, through regular development efforts on multiple fronts, continues to enhance its Laundry-Line Professional products, which encompasses **top-quality products used in professional laundry services**. In our offer, you will find a comprehensive range of formulations dedicated to the professional washing of assortment such as: hotel, restaurant, workwear, entrance mats, and many more.

Using the latest laundry technologies and our experience, we provide comprehensive services for professional water laundries. Our team of technician service are ready provide fast and efficient support for customised laundry technology and equipment repair. Regardless of the complexity of laundry needs, you can rely on our expertise and dedication to achieve excellent results.

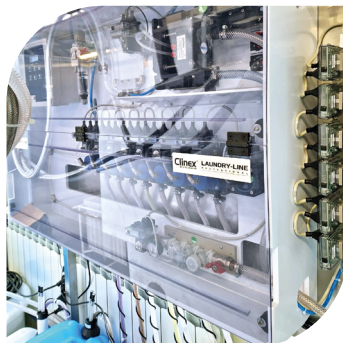

The research and development department constantly follows the latest trends, ensuring the highest level of quality for our products. Additionally, we offer high-quality dosing systems from the SEKO brand, which guarantee not only excellent results but also efficiency and savings. Choose the Clinex brand to enjoy perfectly clean laundry and a modern approach to laundry care!

Since its beginning, Amtra focused on fair relations with clients and suppliers. This helped us build our reliability and stability. After 30 years, we are certain that this was the right choice. We can now enjoy excellent reputation and trust in the world of business. We are looking forward to cooperating with you!

Sincerely yours,

Jarosław Nowakowski  
General Director Amtra Group

# Main solutions

## Prewash

### Concentrated alkaline laundry booster fluid

Highly concentrated alkaline laundry booster fluid. Contains heavy metal ion complexing compounds which effectively reduces water hardness.

**Dosage:** using automatic dispensing systems: 5-13 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						
41-001	26 kg	1	24			
41-002	263 kg	1	2			

## Wash

### Professional laundry detergent

Professional laundry detergent for whites and colors. Adapted to all types of industrial laundry. Contains substances that remove all kinds of stains. Effective even at low temperatures. Contains optical brighteners.

**Dosage:** using automatic dispensing systems: 2-12 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						
41-010	21 kg	1	24			
41-011	203 kg	1	2			

## Wash Max

### Heavy duty laundry detergent

Professional laundry detergent for whites and colors. Adapted to all types of laundry facilities. Contains substances removing even the most stubborn stains, including oil residues. Effective at low temperatures. Dedicated to food and industrial stains.

**Dosage:** using automatic dispensing systems: 3-15 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						
41-055	20 kg	1	24			

## Wash Super

### Liquid for washing stubborn dirt

Professional, highly concentrated degreaser suitable for all types of washing machines and fabrics - both white and colored. It contains substances that remove even the toughest technical and gastronomic stains, including oil stains. The product is dedicated to washing workwear and gastronomy clothing.

**Dosage:** using automatic dosing systems: 3-10 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						
41-056	20 kg	1	24			
41-057	200 kg	1	2			

## Bleach Chlorine

### Chlorine bleach

Professional, concentrated fabric bleach and freshener. Dedicated to white cotton and cotton-polyester fabrics. Adapted to all types of laundry facilities. Contains substances removing soiling susceptible to bleaching.

**Dosage:** using automatic dispensing systems: 4-20 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						
41-045	25 kg	1	24			
41-046	240 kg	1	2			

## Lerasept Spezial

### Concentrated liquid disinfectant

Disinfectant based on peracetic acid. Eradicates bacteria, spores, fungi and yeast, including bacteriophages. The product is intended for disinfection during washing cycle, including hospital linen (e.g. bedsheets, pillow and duvet casings), regular clothing for medical personnel (e.g. medical uniforms, women's/men's aprons, medical aprons), normal hospital clothing for patients (e.g. pajamas).

**Dosage:** using automatic dispensing systems: 2-20 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						pH ~0,5
41-016	30 kg	1	24			
41-017	220 kg	1	2			

## Soft

### Concentrated fabric softener

Concentrated fabric softener used in the last stage of professional laundry cycle. Gives the fabric a pleasant smell and a soft touch. Makes ironing easier. Contains antistatic agent.

**Dosage:** using automatic dispensing systems: 2-20 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						pH ~3
41-005	20 kg	1	24			

## Neutral

### Laundry bath neutralizer

Professional, concentrated liquid for neutralizing pH during the rinsing stage in the laundry process. Adapted for all types of washing machines and various washing technologies. Thanks to its high content of organic acids, the product effectively neutralizes the high pH wash bath to the required value, thus preventing yellowing of washed fabrics.

**Dosage:** using automatic dispensing systems: 1-5 ml/kg of dry laundry. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type of assortment.

KTM						pH ~0,5
41-065	20 kg	1	24			

## Liquid Starch

### Liquid starch

Professional, concentrated liquid starch adapted for all types of washing machines with the possibility of dosing using dosing systems. It gives fabrics a starching effect, facilitates ironing and smoothing, and leaves a shine on the fabric. The formation of a white film on the fabric's surface is not a product defect.

**Dosage:** using automatic dispensing systems: 3-18 ml/kg of dry laundry. Use according to the manufacturer's recommendations for the device. Accurate dosing is determined by the technology engineer - based on the type of soiling, hardness of water and type.

KTM						pH ~4,5
41-050	20 kg	1	24			

## Uni-Gel

### Universal laundry gel

Professional laundry gel for white and colored fabrics. Suitable for washing in all types of washing machines and hand washing. It contains stain-removing and fabric-softening agents. Thanks to its innovative formula, it prevents fabric greying, delaying the aging process. Effectively removes stains even at low temperatures.

KTM						pH ~9,5
41-100	5 L	1	114			

# Your laundry, our solutions. Cleanliness at the highest level!

## Professional stain removers

### Stain Off 1

RUST  
RESIDUES  
METALS

Ready to use. Professional, highly concentrated spot and stain remover. Removes rust and metal stains. Product contains a special blend of carefully selected solvents and assisting substances. It is one of 4 specialized stain removers in the Clinex Laundry range.

**Application:** Identify the origin of the stain properly. Test the fabric's strength in an inconspicuous area. Apply the product directly to the stain before the normal washing cycle. Leave for 5-10 minutes, prevent from drying on the fabric. Neutralize.

KTM
